Dog/Cat Beds

Now that you've got a new kitten and a pup, where are you going to let them sleep? A good pet-parent always makes special arrangements for their new kids. From caves to baskets and donuts, we have whatever you pet prefers to sleep on or sleep in. Dogs are care-free and will gladly take a few winks wherever they're comfortable. Cats though are a bit more private and like a specific place in the house to rest. With that in mind, choose from our unique range for your pet's goodnight sleep.
